# The National ChildSafe Dinner

Kelly Humphries - (Kel) was born in Queensland, and while life may not have gone her way, she has learnt to overcome, conquer and turn adversity into a pillar of strength. Kelly is an author, psychologist, international sports woman, leader in the John Maxwell team, and a Police Woman for over 10 years. Kelly has had a career which positions her as one of Australia's foremost experts in navigating the

road from trauma to triumph and recovery. She works with individuals, organisations and community groups to break down the impact and stigma of trauma. She has won multiple awards including an International Women's Day award in 2016 for Courage and Integrity, and in 2017, she was only one of three Police Officers awarded the QBANK Everyday Hero Award, in the category of Excellence.

Xenia Schembri - international author, speaker and counsellor. Her latest book, "Broken To Be Beautiful" is Xenia's autobiography - honest, candid and raw account of her story, creates hope and awareness for every reader. Through the struggle and fight to survive, the warrior that was deeply implanted inside of her, emerged. This is a

true story of one woman's battle to overcome domestic violence and discover when all was stripped away, she found what emerged, was a restored woman, able to conquer her past. She has also written a 3-book child protection series entitled 'Brave Little Bear' written to empower families, educators and other professionals to teach self-protective behaviours to this and future generations, which gives advice and instructions on how to protect children.

Neil Milton - General Manager for ChildSafe Australia. Vulnerable children need the protection of organisations. Neil is a leader who is passionate about teaching them how. Helping organisations put the child back into focus and realise the motivation is to make sure no child is abused. He has had personal experience with child abuse, and his goal is to work with organisations to give them practical, implementable steps.

Taymon Kenton-Smith - After being given a childhood bow and arrow set, Taymon began shooting back in 2001 when he was only 6 years of age. At 14 he made a promise to his grandmother to make it to the Paralympic Games. In the same year he got his first sponsorship. In 2016 Taymon began to focus solely on his dream for the 2020 Tokyo Paralympic Games.

In 2019 Taymon was put on the list for the 2020 Tokyo Paralympic Games and going into the 2019 National Para VI Championships Taymon was the favourite to win all three contests and he did not disappoint. Taymon is now ranked first among his peers for the Netherlands International Paralympic Qualification Championships. We welcome Taymon as an advocate for ChildSafe.

Corey Lum - As an passionate advocate raising awareness against child abuse, Corey lives his life to make a difference and encourage others. He lives by the words of The Big Three - "Strive. Thrive. Live." In a world where we experience so much pain and suffering, Cory brings an inspirational life as a vocal supporter for ChildSafety and child abuse awareness through fitness and physical endurance.
