

# How safe are the children in your care?

As an organisation providing programs and services for children, you have a legal obligation to provide a child safe environment and to train your staff in accordance with the national child safety standards.

To assist the sports, leisure and aquatic sector with this requirement we have developed a specific child safety training program.

Safeguarding Children Training

**We deliver the 2.5 hour course onsite, online or in a module format for up to 60 participants.**

Topics covered:

- Managing the unique environment of an aquatic, sports and leisure facility and the associated risks
- The importance of child safety management
- Recognising abuse
- Responding to harm and abuse
- Incident and critical incident response
- Abuse reporting to authorities
- Grooming
- Your organisation's child safety policies and procedures

# Child Safety Training and Support for Your Total Organisation

In addition to adapting the child safety training to the aquatic, sporting and leisure environment, we also have similar training that has been developed for the following staff teams:

- Executive teams
- Child Safety and Risk management team
- Parks and Gardens
- Early Childhood/ Maternal Health
- Libraries & Community centres
- School Crossing Supervisors
- Sports Coaches & Team Managers
- General team members
- Volunteers and contractors
- Sports Associations and clubs
- Youth Services

We also work with organisations to deliver:

- Training on the 10 National Principles and/or state standards and guidelines
- Child Safety resources and policy development
- Customised training specific to your organisation
- Conduct Child Safety Audits
- Develop and implement an organisational wide child safety plan
